

User Prompt

3 min

Key Concepts

- **Few Shot Learning in AI:** Using a small number of examples to guide the AI in understanding and completing a task.
- **Single Prompt Few Shot Prompting:** Incorporating examples within a single prompt to direct the AI's [text](#) generation.
- **Text Generation Techniques:** Utilizing few shot learning to create original content, complete partial texts, and generate specific [code](#) snippets.
- **Content Generation:** Starting from scratch, the AI can create content like haikus or short stories based on provided examples.
- **Prompt to Complete:** Giving the AI a partially completed text to finish in a specific style or format, useful for product descriptions or creative writing.
- **Code Generation:** Instructing the AI to generate programming code, which can automate repetitive tasks and solve complex problems, with best performance in popular languages like Python, JavaScript, and others.
- **Versatility:** Few shot learning showcases the AI's capability to handle complex tasks and adapt to a wide variety of prompts and instructions.
- **Experimentation:** Encouraging users to experiment with different prompts and contexts to explore the full potential of [ChatGPT](#) in text and code generation.

SYSTEM

You are a helpful assistant.

USER

Generate a list of book recommendations from the 1990's. Give me a table containing 10 books including the year, author, genre, and book title.

ASSISTANT

Year	Author	Genre	Book Title
